## ABOUT INVESTIGATION

MUTUAL LIFE COMPANY PAID FOR FAVORABLE REPORTS SENT TO NEWSPAPERS.

PAID ONE DOLLAR A LINE

DOUBLE THAT PRICE, HOWEVER, WAS PAID FOR AN ITEM REGARDING M'CURDY.

New York, Oct. 25.—At the session during the day of the legislative committee investigating the insurance companies, the affairs of the Mutual Life Insurance company were under consideration and it was brought out that this company was paying for the dissemination throughout the country of reports of this investigation that were favorable to the company. Charles J. Smith, a newspaperman, was the witness. He is employed by the Mutual Life Insurance company, to do a large number of things, but a month ago was placed in charge of sending out these reports. Mr. Smith had vided a number of vouchers for the payment of this work, and these aggregated \$11,000, with more bills to come in. He thought the amount to date would reach \$14,000.

Mr. Smith wrote these reports and submitted them to Allan Forman, who owns the Telegraphic News bureau, and \$1 a line was paid by the Mutual Life for the service. Clippings from various papers about the country, including the St. Paul Pioneer Press, Boston Herald, Toledo Blade and Atlanta Constitution, were shown to the witness and identified as the dispatches he wrote and sent to Mr. Forman. These were sent to about 100 papers, but Mr. Smith did not know whether the papers were paid for inserting them.

Higher Price for McCurdy Item.

In one dispatch Mr. Smith wrote that Mr. McCurdy's attitude on the stand made a distinctly favorable impression, and for this he had to pay \$2 a line. This he said was worth it.

Following Mr. Smith, Walter Sullivan, who has charge of the magazine advertising department, was called. He said the Mutual advertised in twelve magazines last year at a cost of \$42,000. Advertising in insurance papers cost about \$30,000 more, but he could not tell where the remainder of the account of \$328,797, the amount charged up to advertising last year, was spent.

Earlier in the day Emory McClintock, the actuary of the Mutual Life, was on the stand. The entire early session of the day before recess was given over to his explanations of technical insurance. Mr. McClintock practically advocated no laws for the insurance companies except a certain supervision to give the reports publicity. He thought the public could take care of themselves and that publicity was the best law. Asked how far this view was shared in official circles, he thought he was somewhat of a missionary along that line.

Mr. McClintock was to have been on the stand again at the afternoon session, but during recess he was seized with a slight attack of vertigo to which he is subject. He will be called again.

Hegeman Testifies.

John R. Hegeman, president of the Metropolitan Life Insurance company, was examined and when the adjournment was taken in the afternoon his testimony was unfinished.

While lacking the startling features of the testimony of some other life insurance presidents who have testified, Mr. Hegeman's remarks and explanations were none the less interesting, especially his statement that \$875,000 was given to the industrial policyholders of his company last year without any obligation whatever. Mr. Hegeman further said that in eight years his company had voluntarily given to the policyholders \$8,000,000. This was in extended insurance, mortality dividends and liberalized policies during epidemics, floods and fires.

It was brought out that while the company carried collateral loans throughout the year, none appeared in the annual report on Dec. 31. This was explained by the witness, who said that all collateral loans were transferred on the last day of the year to Vermilye & Co., the brokers, under an agreement, and were bought back again in January. This was done to avoid the horde of applications for call loans from the Wall street district.

Did Not Encourage Call Loans.

Mr. Hegeman did not encourage the call loan business from this section because it entailed keeping a ticker in his office, and he would not have one there. He further did not care to have his company known as a loaning company.

The large loans at such a rate of interest as 1 1/2 per cent, especially the

one to President John A. McCall of the New York Life, were taken up and Mr. Hegeman spoke strongly of his friendship for Mr. McCall, who had rendered him valuable service that was of benefit to the company and personally he thought the company could afford and would have been justified in paying Mr. McCall the few hundreds of dollars the loans amounted to. The same was true, he said, of Silas B. Dutcher, a director of the company, who also carried large loans with the company at low interest.

MILLIONAIRE CLUBMAN KILLED.

Dragged Under a Locomotive and His Body Badly Mangled.

Philadelphia, Oct. 25.—Losing his balance as he was about to board a Westbound train which was approaching the Fifty-second street station of the Pennsylvania railroad, B. Frank Clyde, vice president of the William P. Clyde Steamship company and millionaire clubman, was dragged under the wheels of the locomotive and instantly killed. His body was terribly mangled and his face was crushed beyond recognition, identification being made by means of a tailor's label on the clothing bearing Mr. Clyde's name. While his body was being extricated from the forward truck of the car under which it had been wedged, Mrs. Clyde, unaware of the tragic ending of her husband, passed the scene of the accident in a train coming to this city from Bryn Mawr, a suburb, where Mr. Clyde was bound when he met his death.

Mr. Clyde had been in West Philadelphia on business and was on his way to his country seat near Bryn Mawr.

When the train approached the station he walked to the edge of the platform and stood facing the track with one hand extended in order to grasp the handrail of the car. Apparently lading himself too close to the engine, he attempted to step back, but, instead fell forward. The piston box struck him and carried him under the wheels of the locomotive. The drivers passed over him and his clothing caught in the forward trucks of the first car.

WOULD BE A REAL PREMIER.

Count Witte Objects to Being a Mere Figurehead.

St. Petersburg, Oct. 25.—The announcement made in these dispatches that Count Witte would shortly assume active direction of the government as premier and head of a responsible cabinet, now seems to be fully confirmed. It can be stated positively that the emperor has tendered the position of premier of the cabinet about to be formed to the count, who, however, guarded his acceptance with certain conditions, which were placed before his majesty in the form of a written memorandum. Count Witte is said to have informed the emperor in his usual fearless manner that he could accept the position only on the condition that he would be a real premier with a working cabinet and not the mere figurehead of an irresponsible body.

According to a persistent report the emperor actually appointed Count Witte as premier after accepting his stipulations. This report is premature but it can be said that his majesty has undoubtedly conferred upon the count the task of drawing up, according to his ideas, the project for a responsible ministerial cabinet, the consideration of which was being tediously dragged out in special conference. It can also be said that following the advice of Count Witte the powers of the new donna will be extended along Western lines and the franchise broadened. These reforms will be accompanied by the practical freedom of the press and of meeting, in order to prepare and discuss the popular demands. Count Witte declared that this was the only way the country can be tranquilized and the emperor heeded the warning.

BREWERS CLOSE SALOONS.

Nearly Two Hundred Put Out of Business in Kansas.

Kansas City, Mo., Oct. 25.—The brewers have ordered joint keepers in Kansas City, Kan., and the suburbs of Argentine, Armourdale and Rosedale to close and during the day most of the 200 saloons in those places respected the order. What the state and county officials have not done in years, the brewers themselves have accomplished within twenty-four hours' time. Most of the joints are owned by the brewers. The others can secure no more beer and their supply is almost exhausted. The city officials who levied monthly fines on the "joints" had said that they were powerless to close them and at the instigation of Governor Hoch, W. H. McCanish was appointed assistant attorney of Wyandotte county to see that the places stopped doing business.

EMPEROR IN PRISON.

Chinese Ruler Jailed by the Dowager Empress.

London, Oct. 25.—The correspondent of the Daily Telegraph at Shanghai sends a report circulated at Peking according to which the dowager empress has imprisoned the emperor for alleged connection with the recent bomb outrage at a railroad station there.

# Second Coat Opening

Tomorrow, but particularly in the Afternoon

Our plan of handling our coat business this fall is to carry a nice line at all times and at intervals to bring in a large assortment of novelties; styles which are more or less extreme as well as the neatest in medium priced qualities.

Tomorrow, Thursday, we will make such a display. If you have a coat to buy come in tomorrow, and particularly in the afternoon. If you are not quite ready to buy we will so arrange that the garment will be ready when you want it and you'll have the benefit of this special showing.

We specify the afternoon, for the major part of these garments will come by express, and to insure no disappointment, we say come in the afternoon.

## This is the Store for the New and Novel

things which characterize Good Dress

There is a vast difference between the selecting from a stock that is kept up to the minute in styles and the one which allows such an accumulation that it requires a "cash sale" to dispose of it. It is the better merchandise that we show and you never appreciate it more than at this season of the year.

## SERVICE IS RESUMED

RUSSIAN GOVERNMENT MANAGES TO OPERATE TRAINS UNDER DIFFICULTIES.

STRIKE TAKES VIOLENT TURN

MOBS CLASH WITH POLICE AND TROOPS IN MANY CITIES OF THE EMPIRE.

St. Petersburg, Oct. 25.—The government resumed railroad service on a few roads during the day, but under great difficulties. The decision of the railroad men at a meeting here to declare a general strike has immensely complicated the problem.

Trains left for Moscow during the day over the Nicolai road, but the passengers were notified that communication was guaranteed only as far as Tver.

Several attempts were made to interrupt communication by telegraph and telephone out of Moscow and the telegraph offices had to be guarded by Cossacks. Persons wishing to send messages had to fight their way through crowds of strikers and in many cases were severely handled.

The strike has taken a violent turn in a number of cities from which reports come of encounters between mobs and the police and troops.

Agrarian disorders have broken out in the province of Samara. The troops sent there include a detachment of artillery, indicating that the situation is quite serious.

The executive committee of the League of Leagues had adopted resolutions saying that the present moment was favorable for a general strike of all the professions and recommending doctors, lawyers, engineers and other members of constituent organizations to cease all professional activities.

TIED UP BY INJUNCTIONS.

Grain and Flour Shipments at Superior Stopped.

Superior, Wis., Oct. 25.—Railroads engaged in the grain trade and flour mills at the Head of the Lakes were tied up all day as the result of a second injunction secured by the Wisconsin grain and warehouse commission restraining the Great Northern and the Northern Pacific from moving some 350 cars containing grain upon which inspection fees were due, and the flour mills from using wheat inspected by Wisconsin inspectors and upon which the fees were not paid, or from selling flour made from wheat under these conditions. The mills are all closed and the freight yards here are full of cars tied up by the injunction.

The Northern Pacific attempted to rush some of its cars through the yards here and prevent the Wisconsin inspectors from taking samples. An injunction was immediately secured pre-

venting the company from pursuing this policy.

A motion will be made before Judge Vinje of the circuit court to set aside the injunctions. Judge Vinje set aside the one secured at a session of the court held at Chippewa Falls, and it is expected that the decision which he renders here will be of the same nature. He required the roads to post a bond of \$500, however, before he would allow them to move the cars.

TENEMENT HOUSE DYNAMITED.

Explosion Causes a Panic in Italian Quarter of New York City.

New York, Oct. 25.—The seven-story tenement house on the corner of Grand and Mott streets was shaken at night by an explosion of dynamite which some unknown person had placed on the steps of the butcher shop on the ground floor. The explosion threw the hundreds of tenants in the building and in the houses adjoining into a panic. Men, women and children appeared on the fire escapes screaming that there was a fire and begging for help. Others fled into the streets half clad and that part of "Little Italy" was thrown into a ferment of excitement which lasted for an hour.

The butcher shop was wrecked by the explosion, but the rest of the house was uninjured.

Dr. Vincenzo Seltro, who has an office and apartments in the building, informed the police that the dynamite probably was meant for him, in revenge for his not paying money to the "Black Hand" society.

One Italian was arrested on suspicion of being concerned in the explosion.

WANTED SOME EXCITEMENT.

Indiana Farmer Created It and Is Now in Jail.

Chicago, Oct. 25.—The efforts of Patrick McGrath, a farmer of Chester-ton, Ind., to "liven things up a bit" proved a success in that town and he is now in jail, while four Italians who were injured as the result of his efforts to "liven up" are in the hospital.

McGrath found things too dull for him and noticing an engine standing on the tracks of the Lake Shore road, announced that he would bet anybody 25 cents that he would wake up the town inside of ten minutes. The wager was taken, and McGrath finding that the train crew was absent, climbed aboard the engine. He investigated the machinery for a few minutes, and finally pulled out the throttle to the last notch. The engine dashed down the track and crashed into a train of freight cars in which a number of Italians were eating their dinner. Four of the cars and the engine were smashed and four of the Italians were seriously but not fatally hurt. McGrath escaped with but a few bruises and was taken to jail.

MOB DESTROYS EVERYTHING.

Disturbances at Santiago, Chile, Continue Entire Day.

Buenos Ayres, Oct. 25.—A dispatch from Santiago, Chile, says that about 50 persons were killed and 500 wounded during the recent rioting there.

Santiago, Chile, Oct. 25.—The disturbances here caused by the opposition of the people to the import tax on Argentine cattle continued all day and did not cease until late at night, when a small detachment of troops arrived here and a few shots were fired.

It is to the interest and for the protection of the white man that the negro should be educated, said President Roosevelt Tuesday to the people of Mobile, Alabama, and the president was cheered to the echo. The bitter feeling said to exist in the south against the president some time ago, it seems must have been held by a few negro bartering politicians of the south and not by the respectable people generally.

## DR. A. W. CHASE'S NERVE PILLS

Every day sees an army of worn-out women dragging themselves to work or forcing themselves to attend to their household duties—women whose trouble lies in an overstrain or over-exertion at some time in the past—women who stay in this condition and think themselves beyond repair, because they know nothing of the wonderful power of Dr. A. W. Chase's Nerve Pills to give them back their health, strength and vitality, by their ability to re-supply the lost nerve energy, to build up the system, to manufacture good, rich blood, and give increased weight by making the digestion strong and vigorous.

Mrs. Ella Smith, of No. 43 Miller St., Newark, N. Y., writes:

"Last summer I was so weak I staggered when I walked. I was very nervous, easily excited, could not rest nights, blood thin, appetite poor, and hands trembled—I was in a low state of health. About this time I got a box of Dr. A. W. Chase's Nerve Pills and though everything else had failed, these pills put me on my feet in good health, and that quickly, too. It was not long before I was eating and sleeping well—the nervousness and trembling gone—the blood rich and my strength back. They are a grand medicine and I feel vigorous and strong in every way." 50c a box at dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y. Portrait and signature of A. W. Chase, M. ## NATIONAL HOTEL CHANGES HANDS

Charles Swanson Sells Out to  
George H. Hoyt, of Gold  
Run Creek, Alaska

## NEW MAN IS NOW IN CHARGE

Long Lease Taken on the Build-  
ing and the Furnishings  
Were Bought

A deal was consummated yesterday afternoon whereby the National hotel changed hands, Charles Swanson selling out to George H. Hoyt, until a short time ago proprietor of a hotel at Gold Run Creek, Alaska.

The announcement was quite a surprise to a large number of people in the city as it was never intimated that such a deal was on tap. It had been rumored that Mr. Swanson was dickering for the Ransford hotel, but it was understood in this connection that he intended to close the National in event the deal was closed, and convert the building into a store. So quickly did Mr. Swanson and Mr. Hoyt come together on terms that Mr. Hoyt was in possession of the saloon last night, although he only arrived on the noon train. Mr. Hoyt had been here before, however, about a week ago, and he had at that time about decided on what he would do. He is a married man and his wife will arrive in a few days and will assist in every way about the hotel.

Mr. Hoyt is a man of wide experience in the hotel business, he has means and is young and active and is surely to make good.

For the present there will be no changes in the general arrangement of the hotel, but Mr. Hoyt expects to make several changes in time to conform with everything that goes to make a first class hotel.

Mr. Swanson has not decided what business he will engage in, but intimates that he will remain in Brainerd where he still has large interests. He has made a success in the hotel business. He has been a resident of Brainerd for a long time, coming here first to work in the N. P. shops as a blacksmith. Since then he engaged in business and has made what might be called a phenomenal success. He started in an unpretentious manner but kept continually improving until he had a hotel which is a credit to the city.

## NICE SUM FOR SCHOOLS

County Auditor Mahlum Tuesday Received  
County's Share of the State  
Apportionment

County Auditor Mahlum yesterday received a check from the state authorities amounting to \$8024, to be distributed among the schools of the county, the same being the county's share of the October apportionment. Of this amount the city schools will receive over \$5000 on an attendance of 2022 and the balance, about \$4000, will be distributed among the country schools according to their attendance.

The auditor also received a check for \$1575 for the high school from the state high school fund. This amount is about \$200 larger than was received last year.

## "UMPIRE STATE" STOVES FOR WOOD

## OUR CLAIMS FOR SUPERIORITY

Of these stoves over all others are based upon the following exclusively new features:

FIRST—Only Tamala air-tight that does not smoke and spit flames when top feed is opened, or puff, roar and explode while in operation.

SECOND—Jointless, corrugated, all cast iron bottom, having a pit of 6 inches deep, in which the fuel burns without any possibility of leakage.

THIRD—Perfect draft regulation and adjustment by means of our patent screw register in the oval air tight fitted ash door in the pit. The opening for this door is arranged so as to permit the easy and cleanly removal of the ashes, and avoid dust when door is open.

FOURTH—Mounted with lasting and heavy corrugated sheet steel of the highest quality.

FIFTH—Heat deflecting rings surrounding entire stove, and producing wonderful floor heating.

SIXTH—Cast-iron main top with two cooking holes in 24 and 28, and a supplementary swinging feed-top in 18 and 22.

SEVENTH—Check register in pipe collar.

EIGHTH—Handsomely nickel-plated foot rails, urn and nickel panel, knobs, screw register, and nickel swing top.

NINTH—Has cast-iron front, fitted with a circular 12 inch door for feeding.

TENTH—Pipe collars made to receive inverted stove pipe, to avoid exterior leakage of creosote, which is inevitable in a thoroughly air-tight stove.

## BROWN-JOHNSON

Pretty Wedding Solemnized Last Night  
When Two Well Known Young People Were United in Marriage

A pretty wedding took place last night at 9 o'clock at the home of Mr. and Mrs. Amos K. Lukens, 818 Seventh street south, when Mr. Floyd Brown and Miss Minnie Johnson were united in marriage.

The wedding occurred in the presence of a company of relatives and a few intimate friends, Rev. J. F. McLeod, of the First Presbyterian church officiating. The home was beautifully decorated for the occasion with smilax, cut flowers and fern and following the wedding ceremony the guests and bridal party sat down to an elaborately prepared wedding supper.

The young people were recipients of many costly and valuable presents, including cut glass pieces, fancy dishes and other articles too numerous to mention.

The bride was attired in a beautiful traveling gown of crepe de chene, lined with taffeta silk, and looked very charming.

The young couple left on the midnight train for the twin cities from whence they will go to the southern part of the state for a visit.

Both young people are very well known here having been reared here. The bride is a daughter of Mr. and Mrs. L. P. Johnson and the groom is a son of Mr. and Mrs. Adam Brown. They both have a large number of friends in the city who join with THE DISPATCH in extending congratulations.

## ASSISTING THE CITY ENGINEER

F. W. Cappelen, Consulting Engineer of Minneapolis, Here on Water Works Matters

## WILL INVESTIGATE CONDITIONS

He is a Gentleman of Wide Experience in Matters Pertaining to Water Works

F. W. Cappelen, formerly city engineer of Minneapolis, and one of the leading authorities in the northwest on city paving, sewers, water supply, bridges and power plants, is in the city having been engaged to consult with City Engineer H. M. Woolman on the water works matter.

The gentleman will study the conditions here, will figure on the proposed plant from various standpoints. Among other things it is expected that he will examine and report on the feasibility of getting the city's water supply either from Gilbert or Long lakes.

Mr. Cappelen is the gentleman who was here to give the city information when the general sewer system was inaugurated.

## NOT A RESIDENT HERE

Archie Bailey, the Man Killed at Watertown, S. D. Not a Resident of Crow Wing

Archie Bailey, the man who was killed in a saloon row at Watertown, S. D., and who was thought to be a resident of this county, has been identified by Levi Bailey, of Crow Wing, as a cousin of his, but says he does not reside here, nor does any member of his family. Mr. Levi Bailey, who was in the city this morning, said that deceased visited here about 14 years ago, and he has not seen him since. That his people live in South Dakota and have never resided here.

Chief Simmons got the names of several near relatives of the dead man from Mr. Bailey, and is communicating with them as to the disposition they desire made of the body.

## THE PANAMA CANAL.

Engineer Randolph Says Americans Can Build It.

Washington, Oct. 25.—The Isthmian canal commission during the day made public a letter written by Mr. Isham Randolph, a member of the board of consulting engineers of the Panama canal, to Zina R. Carter, president of the sanitary district of Chicago, which embodies the views of Mr. Randolph concerning canal matters. He has recently returned from a visit to Panama with other members of the board and his opinions are interesting and in view of the publication of the letter by the commission may be considered semi-official. In his letter Mr. Randolph says:

"What we do know is that it can be done; that Americans can do it and that in as short time as so stupendous an undertaking can be put through. We do know that almost limitless resources await the demand of the builders; that the builders represent the highest grade of American engineering talent. Hence we may reasonably look for the passage of the great ocean freights from the Caribbean to the Pacific, before our calendars are headed 1915. This is no easy triumph for the builders."

## CRIMINAL PROCEEDINGS.

May Follow Investigation Into Bank's Affairs.

Pittsburg, Oct. 25.—At a late hour at night it was learned that Bank Examiner John B. Cunningham, while making an examination of the bank of Pittsburg, N. A., found a discrepancy between the reports made to Comptroller of the Currency Ridgeley by the bank of Pittsburg, N. A., and the Enterprise National bank of Allegheny, which led to the closing of the latter institution.

Acting Attorney General Hoyt has directed United States District Attorney John M. Denkle to make a thorough investigation into the affairs of the Enterprise National bank with a view to criminal proceedings if the evidence warrants such a course.

Mr. Hoyt's order means that all the papers and other evidence in the possession of Bank Examiner Cunningham will be turned over at once to United States District Attorney Denkle, and that from now on the legal representatives of the federal government will have charge of the case.

Notwithstanding the fact that mail and telegrams continue to arrive for Comptroller Ridgeley, he has not yet arrived in the city, but is expected soon.

## MUSIC AND DRAMA.

MR. DANIEL SULLY

The play's the thing—but there are exceptions that prove the rule, and Dan Sully is one of the exceptions. In "Our Pastor" the favorite actor is the "soggarth aroon"—ideal.

Daniel Sully cannot be compared with any other actor. He's the only one of his kind. The character of the Parish Priest well known to the flock he guards and loves is unknown in his real character to those outside. His parishioners, after the manner of humankind, visit him most when in trouble, and he learns to be a shrewd and kindly judge of human nature. Seldom is the Irish Catholic priest devoid of that delicious sense of humor that is such a saving grace. Mr. Sully brings the public into touch with a natural and refreshing character. Mr. Sully's facial expressions and subtle suggestions make Father Daly very natural and very human. There is little affectation about the "soggarth" known to his flock, and his sympathy and sterling honor are too real to need the cloak of reserve or severity. He is confident, adviser, father and friend. He admonishes sternly, speaking to a man as his own conscience would, and melts to tenderness born of the charity that is in him for human frailty. At the Brainerd opera house Tuesday Oct. 31.

## A GREAT WEAPON.

Brainerd People Cannot Fail To Appreciate Its Value.

Only one weapon, To fight backache—The weapon that strikes the cause. Doan's Kidney Pills strikes the root. Their work in Brainerd proves it. You read of cures made years ago. And the cures were lasting cures. Read the following:

Philip O'Neill, of 516 Norwood St., Brainerd, Minn., says: "Brainerd people have seen in the local papers the testimony I gave in 1898, recommending Doan's Kidney Pills, and many times I have been called upon to corroborate that statement in personal interviews. My confidence in Doan's Kidney Pills has not been lessened during the past six years. It has shown itself equal to all the claims made for it. I was a sufferer for a long time from backache and pains in the loins. The kidney secretions were too frequent and much discolored. The trouble became worse and worse and nothing helped it until I got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store. I used this remedy faithfully until the annoyance from the kidney secretions ceased and the pains and backache disappeared. The cure then effected has been most gratifying and altogether permanent."

## WITHOUT FOUNDATION

Supt. Cook, Saw A. L. Mattes Yesterday, And Nothing was Said About Child Being Hurt

There has been a rumor afloat for several days to the effect that little Alice Mattes, daughter of Mr. and Mrs. A. L. Mattes was run down by an automobile in Minneapolis and was seriously if not fatally hurt. One report was to the effect that the little girl had been killed. Supt. Cook, of the Brainerd Lumber company, returned from Minneapolis this afternoon and he stated to a representative of THE DISPATCH that he saw Mr. Mattes as late as yesterday noon but that nothing was said to him about the affair and so it is quite likely that the report is without foundation.

# Cigar Insurance

The **A** box-mark of the American Cigar Company is the official seal of insurance on your cigars, whatever price you pay for them, insurance of **quality, uniformity, cleanness and condition.**

It guarantees you **better cigars at every price**—cigars that are fragrant, full-flavored, mel-low and absolutely unvarying in quality.

The American Cigar Company has established scientific system in every stage of cigar production, from the culture of the tobacco to the delivery of the cigar.

The American Cigar Company has equipped a great system of "Stemmeries" to provide for new and heretofore unknown tobacco-improving processes, which no other manufacturer even attempts.

The selected leaf is thoroughly fermented by a two-year process and the ripening tobacco is perfectly blended—all the qualities of the selected varieties of leaf that have been stored in contact being smoothly mingled. The ordinary factory operation called "blending" is not blending at all but merely mixing.

The finished cigars are stored in great "Humidors" where the climatic conditions of Cuba are constantly maintained—a moist warm air and an even temper-

ature. Here the finished cigars are constantly improving, like rare old wine—with all their characteristic aroma intact until they are ready to go to the dealer. After this **seasoning and maturing** and before being shipped, the cigar boxes are sealed and **double-sealed** in a tough parchment paper wrapper which does much to preserve their condition.

The only way to get the highest cigar quality at any price is to see you get an American Cigar Company brand. The cigar that suits thousands of other smokers may not please **your** taste at all; yet the way to test the results of the new tobacco-improving process is to begin with such a remarkable "hit" as the

### IN FAVOR OF A STRIKE.

Textile Operatives of Fall River May Quit Work.

Fall River, Mass., Oct. 25.—Although the Fall River Textile council which held a special meeting at night to consider the refusal of the manufacturers' association to grant a direct wage increase of slightly more than 14 per cent, made no recommendation to the various unions, the indications point to a general strike before the close of the month. Special meetings of all the unions will be held at once to vote on the question of leaving the mills.

The textile council was in session two hours in the evening and the situation was gone over carefully by representatives of the weavers, corders, spinners, slasher tenders and loom fixers' union. When a vote was taken

it was decided not to make a recommendation of any kind.

The sentiment among the rank and file of the operatives, union and non-union, appears to be strongly in favor of a strike. Should the unions declare for a cessation of work it is probable that the operatives will withdraw from the mills on Saturday, with the intention of remaining out.

### Hunter Fatally Wounded.

St. Paul, Oct. 25.—Henry Kelcher, fifty-three years old, and living in this city, was probably fatally injured while hunting in the vicinity of New Prague. It is said that Mr. Kelcher fell while in the field. The gun he carried was discharged and part of the shot entered his body near the left breast and some of the shot penetrated his left temple.

## ALABAMA TOUR ENDS

PRESIDENT ROOSEVELT'S JOURNEY THROUGH THAT STATE IS CONCLUDED.

### ARMED MAN IS ARRESTED

DROPPED HIS REVOLVER ON THE STREET WHEN THE PRESIDENT WAS PASSING.

Birmingham, Ala., Oct. 25.—President Roosevelt concluded a strenuous day in Alabama by a two hours' visit to Birmingham, where his reception was in keeping with those given him at Montgomery and Tuskegee, being hearty and soul-stirring. His day began at 7 o'clock when the special train left Montgomery for Tuskegee. Visits to the Tuskegee normal and industrial institute and to the Methodist female college were crowded into a little less than two hours and the noon hour had just arrived when the chief executive stepped from his car in Montgomery. Here he spoke to a great throng under the shadows of the Confederacy's first capital and was on his way again sharply at 2 o'clock. A few minutes before 5 o'clock the president was the guest of Birmingham and until his train left at 7:45 p. m. on the night run to Little Rock, Ark., the president was cheered at every turn. The day was unmarked by any special incident, save at Birmingham. Here at the corner of Fifth avenue and Twentieth street an intoxicated man in his excitement dropped a pistol from his pocket on the pavement. The president saw the incident and called the attention of officers to the man, who was immediately arrested.

The president's train arrived in Birmingham promptly on time. Mayor Ward surrounded by a reception committee delivered the formal address of welcome at the station and immediately after the party entered carriages and began the march to Capitol park, eight squares distant.

### Ovation Was Continuous.

The parade was along North Twentieth street and the entire line of march was packed with humanity. The ovation to the president was continuous and he stood in his carriage the whole way acknowledging the out-

burst of enthusiasm. A pretty incident at the close of the march was when the president asked the name of the lady riding at the side of his carriage.

Miss Sammie Harris was sponsor for Troop D, one of the local cavalry organizations. The president was introduced to her by Mayor Ward and as he reached over to shake her hand he crowded the mayor. Excusing himself he said:

"I would run over a man any time to shake hands with a lady."

At Capitol park, under the glamor of thousands of electric lights, the party entered the speakers' stand.

General Rufus N. Rhodes, editor of the Birmingham News, welcomed the president in behalf of the citizens of Birmingham.

Great applause greeted the president as he arose to speak.

Following the president's speech, Former Governor Joseph F. Johnston spoke in behalf of Camp Hardee, United Confederate Veterans, and presented to the president several young ladies, descendants of Confederate soldiers, and sponsors and maid of honor, who presented to the president a badge from the camp.

From Capitol park the party proceeded to the Alabama state fair grounds, where the president was introduced by T. K. Molton, president of the Birmingham Commercial club. The crowd at the fair was also enormous and greeted the president enthusiastically. He made a brief speech.

From the fair grounds the president returned to the city and the special train left for Memphis forty-five minutes behind schedule time.

### FOUND GUILTY OF FORGERY.

Prominent Missouri Merchant Convicted by a Jury.

St. Joseph, Mo., Oct. 25.—W. H. Harroun, charged with having forged \$700,000 worth of bills of lading and obtaining money on them, was found guilty by a jury at 8:40 p. m. and the penalty fixed at five years in the penitentiary.

The forgeries were committed about a year ago and were principally on Burlington route bills of lading.

He formerly was a prominent grain merchant operating large elevators and offices in St. Joseph, Kansas City and St. Louis. It is said that Harroun borrowed money on the forged ladings to tide over speculative losses and then endeavored to take up the loans before the forgeries were discovered.

### Three Trainmen Injured.

Terre Haute, Ind., Oct. 25.—Three trainmen were seriously injured by the explosion of a freight engine on the Chicago and Eastern Illinois railroad at Jackson yards north of this city. Several cars were wrecked.

### ROGERS' TRAIN IN COLLISION.

Standard Oil Magnate Slightly Hurt in Accident.

Leavenworth, Kan., Oct. 25.—The Henry H. Rogers special train while standing in the union station yards here late at night was struck by a runaway section of a freight train, ten cattle cars of which broke loose from the engine and ran back down a heavy grade into the Rogers train. Mr. Rogers was asleep in his berth and the impact threw him across his berth, striking his head against the wooden partition. Panes of glass were broken in the Pullmans, which were otherwise uninjured, but the freight caboose was shattered.
